

## Get recognised for your skills in agriculture or rural business

If you have farming experience, you are eligible to apply for subsidised training in agriculture or rural business.

- Gain two qualifications – Certificate III in Agriculture and the Diploma of Agriculture or Diploma of Rural Business
- All course interviews and observations are completed in Mount Beauty Neighbourhood Centre or at your property
- Government funding up to 90% of the course cost.

Limited diplomas are available with courses being held from July 2010 through to May 2011. Have your existing skills recognised through Recognition of Prior Learning (RPL). This may shorten the time it takes you to complete your qualification.
